

Homework #3

Homework #3 : Explore and Clean

Using R :

Load the following CSV file to your R environment :

<http://www.math.smith.edu/sasr/datasets/help.csv>

Using the above file perform the following,

- Create a dataframe of: id, pcs1, mcs1, substance, and race group
- Calculate: Mean, Max, STD, Max, Min of mcs1
- Create a frequency table of substance vs. racegroup
- Substitute the missing values of mcs1 by the overall average
